SAM HOUSTON NATIONAL FOREST

The Sam Houston National Forest contains 163,030 acres of piney woods, rivers, and lakes within Montgomery, Walker, and San Jacinto counties. Its existing 280 miles of trails includes the 126 mile Lone Star Hiking Trail, 85 miles of multi-use trail, 18 miles of developed cycling and hiking trails at Double Lake and 12 miles in Compartment 57, 3 smaller trails in the Cagle Recreation Area, and many bridges/boardwalks.

WHO WE ARE

The Sam Houston Trails Coalition is a 501(c)3 non-profit organization comprised of individuals with diverse interests including but not limited to cycling, equestrian, hiking, and motorized. Together we work with federal, State, county, and local entities to plan, develop, fund, implement, and maintain a comprehensive sustainable trail network for diverse outdoor recreational use while protecting the natural resources and educating others accordingly.

SAM HOUSTON NATIONAL FOREST is located one hour north of Houston, Texas.

Willis, TX 77378

CALL TO ACTION

A passion to recreate must be accompanied with an equal passion to sustain. When we align our efforts through shared perspective, balance is struck for all stakeholders. A trail management strategy is required to reduce impact and erosion. Although some may never venture into the forest, we must ensure the trails exist. Please join us as we practice responsible stewardship of forest trails.

THE RED-COCKADED WOODPECKER

The Sam Houston National Forest is home to the red-cockaded woodpecker, federally listed as an endangered species since 1970. For a fact sheet and video on this protected species, go to the bottom of the SHTC’s home page www.samhoustontrails.org, Fast Access.
